#### **Fulbright Program for Foreign Students**

“A mainstay of America’s public-diplomacy efforts, the Fulbright Foreign Student Program brings citizens of other countries to the United States for Master’s degree or Ph.D. study at U.S. universities or other appropriate institutions. The program has brought some of the world’s finest minds to U.S. campuses and offers program participants insight into U.S. society and values. Many foreign Fulbright grantees are early-career professionals who will return to take leadership positions in their home countries, often working at universities or in government service. More than 1,800 new Foreign Fulbright Fellows enter U.S. academic programs each year. Foreign students apply for Fulbright Fellowships through the Fulbright Commission/Foundation or U.S. Embassy in their home countries. The Institute of International Education (IIE) arranges academic placement for most Fulbright nominees and supervises participants during their stay in the United States.”

The Fulbright is applicable to students from over 144 countries, including every country otherwise listed in this document. An interactive list of participating countries can be found at [this link](#) (requires Flash). International students wishing to receive a Fulbright award are advised to contact their nation’s embassy with the US.
